

### Growing out

Of a reason. Nothing is  
that has not grown  
out of a reason

The child in its mother's  
belly is there for a reason  
for the reason  
that she did not say  
no and no and no again

For the reason that she  
may have liked someone or  
for the reason that she did not  
want to admit that she did not

The earth is growing.  
Is there a reason beyond  
the reason that the seed  
was planted? Beyond the reason  
that someone wanted to plant  
the seed

Or the reason that someone  
did not want to admit  
that he did not want  
the seed to be planted

Who will deny  
that it should not  
have been denied
